Product Description

(Xiaobai & Wei), The Device)

Working Principle

The induction window is aimed at people. When the system detects the hot water,

(The machine senses the change of the temperature and

Should not be installed in high temperature or

There are two modes to choose from

Usage Steps

Key Instruction

Common After-sales Solution

Technical Parameters

Ventilation disorder

Ultrasonic shock in the Grid. Ultrasonic has no solder

Ultrasonic Welding, Ultrasonic Cleaning, Ultrasonic Dispersion, Ultrasonic Emulsification, Ultrasonic Homogenization, Ultrasonic Extraction, Ultrasonic Crushing, Ultrasonic Atomization, Ultrasonic Cutting, Ultrasonic Drilling, Ultrasonic Sealing,
